

BUILDER CLASSIC™

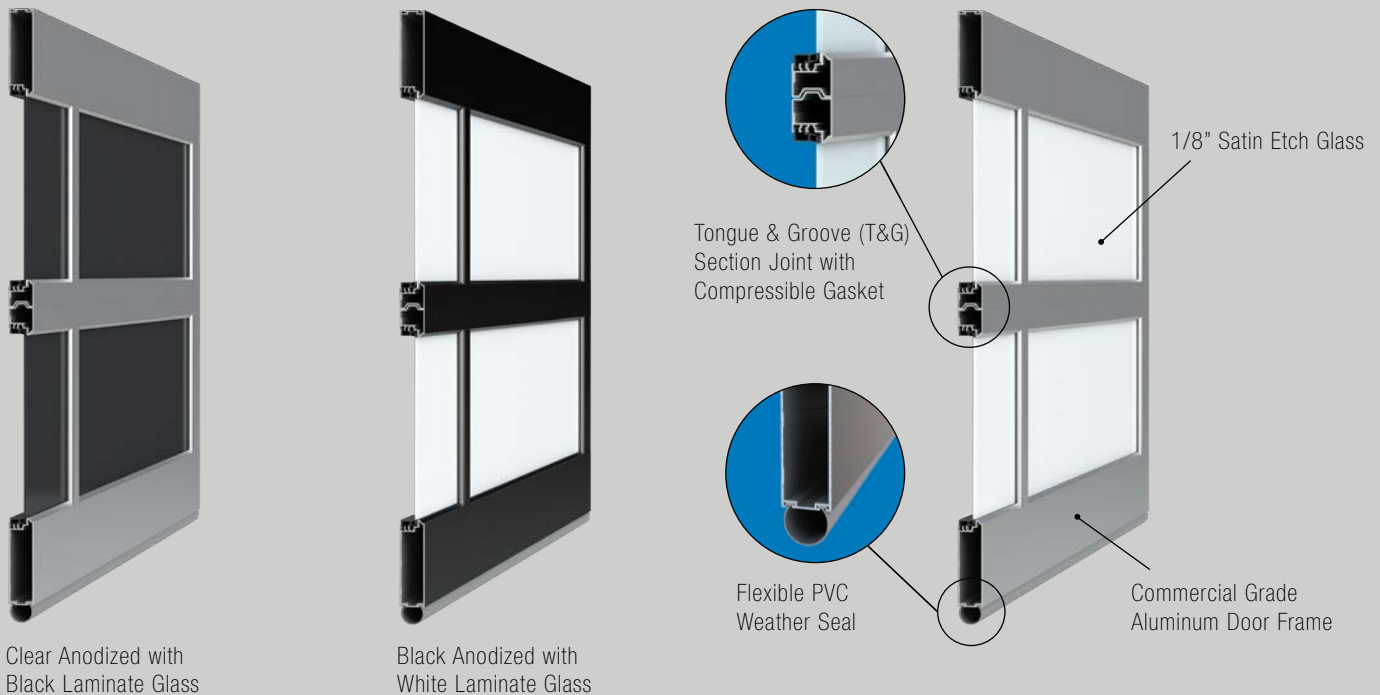

Contemporary Style Aluminum Garage Doors

HÖRMANN NORTHWEST DOOR

Builder Classic Corrosion-Proof Construction

The Builder Classic is virtually maintenance free and built to last as long as you own your home! It is constructed using heavy duty commercial grade extruded aluminum stiles and rails. Framing members are mechanically fastened at joints creating an exceptionally high strength door frame. A precisely engineered Tongue and Groove (T&G) joint with a compressible gasket is incorporated at meeting rails. Choose any of our three glass options (1/8" Satin Etch, 7/32" White Laminate or 7/32" Black Laminate) and one of our three beautiful anodized finishes: Clear (Standard), Dark Bronze, or Black.

The full vision design of the Builder Classic makes it aesthetically pleasing and suitable for many exterior and interior applications including offices, restaurants, she sheds and man caves.

Door Specifications

- **Frame:** 1.5" thick, extruded commercial grade aluminum
- **Glass Options:** 1/8" Satin Etch Glass, 7/32" White Laminate or 7/32" Black Laminate

Black Laminated

Satin Etch

Anodized Aluminum Color Options

Builder Classic is available in three finishes: Black, Bronze, and Clear. While black and bronze look very similar, black tends to have a more consistent and uniform neutral color, while bronze may have slight color variations (of ± 5 delta E) and a slightly warmer tone.

Garage Door Replacement, A Great Investment!

Model BC44, Black Anodized, White Laminate Glass

According to **Remodeling Magazine's Cost vs. Value Annual Report**, year after year, a garage door replacement with upscale garage doors has continued to be one of the highest ROIs (*Return on Investment*) of all exterior remodeling projects.
