

8700 MODEL

VINYL GARAGE DOOR
R-10* Polyurethane Insulation
UV Resistant

Colonial Panel, White finish, Ruston windows

door construction

The model 8700 vinyl garage door is engineered to be maintenance-free and provide an elegant look that will last a lifetime. It won't rust, fade, crack, or dent. It is the ultimate door for easy-care living.

- The model 8700 comes in two panel designs that offer the timeless design of freshly painted hardwood.
- This door has full PVC color construction. This means scratches will never show because the color goes all the way through the material.
- The UV-Resin used in the door's construction contains special polymers that protect the door sections from the sun's harmful ultraviolet rays.
- Tamper-resistant safety bottom brackets help avoid possible injury by preventing inadvertent loosening while the counterbalance cables are still under tension.
- The Wayne Dalton TorqueMaster® Plus is the first counterbalance system to seal springs safely within a steel tube. It contains an anti-drop feature that reduces the risk of injury due to accidental release of tension.
- Recommended for coastal regions for its resistance to salt air and sand.

- ① R-10* polyurethane insulation is permanently bonded to the vinyl skin for thermal efficiency, durability and added rigidity.
- ② Twin 20-gauge steel C-channels run full length of each panel and are anchored to interior steel stiles for strength.

specifications

Panel Designs

Colonial

Rich wood grain texture and deep raised panel design

Sonoma

Rich wood grain texture and deep grooved panel design

Warranty

Wayne Dalton warrants this door for 15 years against peeling flaking, chipping or cracking of the vinyl skin and 5 years against excessive color fading of the vinyl skin. See the warranty certificate for more details.
